MEMORANDUM FOR: Warning Working Group Members

SUBJECT : Next Meeting

1. We will meet as previously noted at 1315 on Thursday, 21 June, in Room 7D32.

2. Contrary to my previous note, the meeting will not be enlarged to include service representatives. The Director, SWS is not yet in position to talk to his personnel requirements, but would like to discuss further with us his concepts for the work of SWS. This will be the main item on the agenda. He is preparing a paper which I hope to distribute to you in advance.

3. [redacted] informs me that he will have available for the meeting a new proposal on the research program, and we will probably want to spend some time on this.
